Stunning new deep-space images — and how they were taken

For hikers who observe or photograph, Trek-Tech's new TrekPod walking stick/tripod combination may be for you. Made from an aluminum alloy and polymers, TrekPod weighs only 30 ounces. Use its rare Earth magnetic coupler and 1/4"-20 threaded bolt to attach cameras, spotting scopes, or binoculars. The TrekPod's height is adjustable from 43" to 60". **\$139.99**
