<< Take A Hike

It's a hiking staff and a monopod—and a tripod too! Trek-Tech's TrekPod is a terrific tool for working in outdoor situations. A unique MagMount ballhead (also available separately) provides magnetic quick-mount/quick-release capability and easy positioning at any angle for any device that uses industry-standard mounting threads, while a supplied cork palm rest covers the MagMount for hiking-staff use. The TrekPod extends from 43 to 58 inches in tripod mode, and 46.5 to 62 inches in hiking staff/monopod mode, and weighs just 30 ounces, including the MagMount. Estimated Street Price: \$139. **Contact:** Trek-Tech, (503) 459-0030, www.trek-tech.com.
